

**National Institute of Open Schooling**  
**Senior Secondary Course : Home science**  
**Lesson 25 : Textile Finishes**  
**Worksheet - 25**

1. A dyer wants to dye the fabric in light pink colour. What finishing treatments should he give to the fabric before dyeing?
2. Suggest a finish suitable for rainwear. What properties does that finish provides to the fabric?
3. Parchmentization results in permanent fabric stiffness. Is it true or false? Explain.
4. Your sister wants to make a *bandhini dupatta* at home. Suggest the technique that she can use for making the *dupatta*.
5. Your mother wants to make her cotton *saree* shiny and crisper. Suggest a suitable finish and required chemicals to her.
6. Do you think mercerized cotton is better than non-mercerized cotton? Justify your answer.
7. If the label on the fabric reads 'sanforized', what does it mean?
8. Which finish do you think will be suitable for making fabric for non-crushable cotton pants?
9. How will you check the colour fastness of the fabric while buying?
10. 'Batik is a resist dyeing technique'. Explain if you agree with this statement.
